

# Bèta

growing in high-tech R&D

**TWICE**  
● building high tech success

"Twice provides everything for our startup to grow. Offices that match the evolution of our company, starting in Alpha during our early startup phase and moving to the Beta building on the High Tech Campus with its own lab space."

Dr. Kaylee Hakkel  
COO  
MantiSpectra

With its hubs, TWICE offers a particularly stimulating environment for young, innovative technology companies. *Bèta* is one of the hubs, situated on the High Tech Campus. *'The smartest square kilometer'*. TWICE offers next generation high tech companies space to grow faster: *'building high tech success'*.

Eindhoven and the Brainport region - an area where innovative companies and knowledge institutes apply for above-average numbers of patents. The high-tech industry is the driving force behind, and powered by Research & Development (R&D).

*Bèta* is fully equipped with modern flexible office space and high-quality laboratories. Hub *Bèta* is primarily home to technology companies active in high-tech Research & Development. People who also believe in sharing knowledge and the power of networking.

Establishing your company in *Bèta* means working with more than 12,500 technicians within walking distance at a vibrant location. All the facilities of the High Tech Campus are available: conference center, childcare, sports facilities and numerous networks.

### Benefits of *Bèta*:

- Network with companies active in high-tech R&D
- Located at the High Tech Campus Eindhoven
- Close to highways and public transportation
- Office spaces and electrical laboratories from 25 to 500 m<sup>2</sup> (modular and scalable)
- High quality redundant ICT infrastructure (with emergency power network)
- Server rooms with server racks
- Advanced ventilation system - balanced ventilation
- Lively entrepreneurial network High Tech Campus Eindhoven (part of High Tech Campus Business Club)
- Various facilities within walking distance (restaurants, childcare, sports center, etc.)
- Virtual reception
- Shared facilities such as meeting rooms, pantries
- Various general facilities such as parking, repro, mail service
- Network of specialists who can support with growth
- Possibilities for growth: from a single workspace to a dedicated office
- TWICE Community

# TWICE hubs

## Building high tech success

Many high tech companies have already used our hubs. The success, growth and performance of these high tech organizations shows that TWICE offers an ideal breeding ground to accelerate business. Startups and scaleups can grow in an environment with high quality facilities, great flexibility, first class service and a nice community of innovative companies.

Our shareholders are the Brabant Development Agency (BOM), Eindhoven municipality, Eindhoven University of Technology, Brainport Development and Rabobank. Together with us, they ensure that companies in the Brainport region can flourish.
