growing in R&D,
(bio)medical and med tech

TWICE
● building high tech success

“TWICE, indeed.
This is my second time working in the Catalyst building. Once again overwhelmed by the activities arranged by Twice, within the Brainport area. Exactly what we need as Nanoscolo to broaden our possibilities.”

Miguel Boutelje
CEO Nanoscolo

With its hubs, TWICE provides a particularly stimulating environment for young, innovative technology companies. Catalyst is one of the hubs situated on the TU/e Campus.

‘Where innovation starts’ is the credo of the TU/e Science Park. TWICE offers next generation high tech companies space to grow faster: ‘building high tech success’.

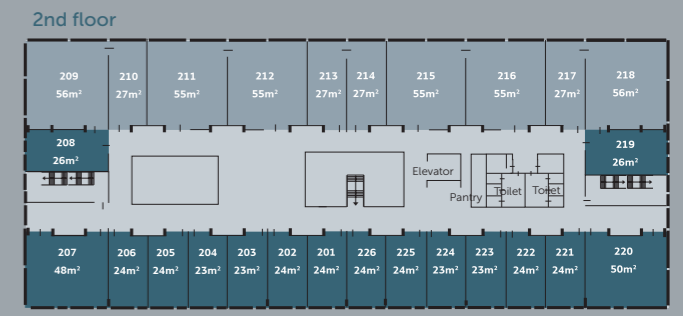

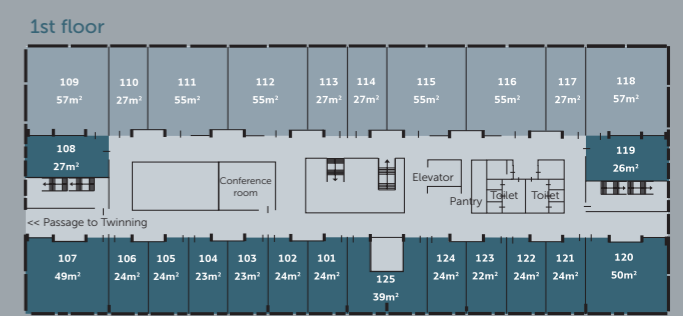

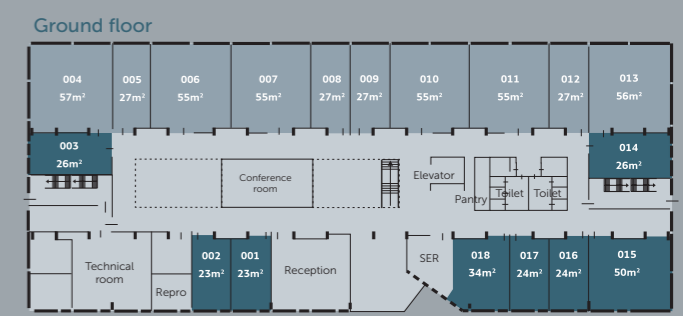

The campus of Eindhoven University of Technology (TU/e) is a breeding ground for innovative ideas and the beginning of great collaborations. These require a stimulating environment with a suitable workspace as a basis. In the Catalyst hub on the TU/e Campus you can meet like-minded people. People working in the same field or in the same industry. In hub Catalyst you will find small-scale office and laboratory space for high-tech companies predominantly active in R&D, (bio)medical and med tech.

In Catalyst you work from the heart of technology development, with thousands of scientists within walking distance. The following facilities are available on the TU/e Campus: such as research facilities, childcare, sports facilities and more.

Benefits of Catalyst:

- Network with companies in R&D, (bio)medical and med tech
- Located on the TU/e Campus
- Close to the center of Eindhoven, highways and within walking distance of public transportation (train station)
- Office and laboratory space from 25 to 500 m² (modular and scalable)
- High quality laboratories possibly including lab equipment
- Emergency power grid and redundant fiber optic connections
- Server rooms with server racks
- Advanced ventilation system - balanced ventilation
- Central reception with telephone answering facilities
- Own parking garage
- Various facilities within walking distance (center, childcare, sports center, etc).
- Shared facilities such as meeting rooms, pantries
- Various general facilities such as repro, mail service
- Network of specialists, who can support with growth
- TWICE Community

TWICE hubs

Building high tech success

Many high tech companies have already used our hubs. The success, growth and performance of these high tech organizations shows that TWICE offers an ideal breeding ground to accelerate business. Startups and scaleups can grow in an environment with high quality facilities, great flexibility, first class service and a nice community of innovative companies.

Our shareholders are the Brabant Development Agency (BOM), Eindhoven municipality, Eindhoven University of Technology, Brainport Development and Rabobank. Together with us, they ensure that companies in the Brainport region can flourish.
