TWICE
● building high tech success

"The perfect location in the heart of Brainport not only strengthens the cooperation with regional partners, but also has the international appeal to grow further with our company within the representative buildings of TWICE."

Bart Sanders
CEO Stentit

With its hubs, TWICE offers a particularly stimulating environment for young, innovative technology companies. Mμ is one of the hubs, situated on the High Tech Campus.

'The smartest square kilometer'.

TWICE offers next generation high tech companies room to grow faster: 'building high tech success'.

Eindhoven and the Brainport region - an area where innovative companies and knowledge institutes apply for above-average numbers of patents. The high-tech industry is the driving force behind and powered by Research & Development (R&D).

Hub Mμ offers flexible office spaces and high-quality laboratories. The hub is mainly occupied by technology companies active in Research & Development, with a focus on lifescience/tech and new energy. People who also believe in sharing knowledge and the power of networking.

Establishing your company in Mu means working with more than 12,500 technicians within walking distance, at a vibrant location. All the facilities of the High Tech Campus are available: conference center, childcare, sports facilities and numerous networks.

Benefits of Mμ:

- Network with companies active in high-tech R&D with focus on New Energy & Lifescience/tech
- Located at the High Tech Campus Eindhoven
- Close to highways and public transportation
- Office spaces and laboratories from 25 to 500 m² (modular and scalable)
- High quality laboratories including equipment
- High-quality redundant ICT infrastructure (with emergency power network)
- Server rooms with server racks
- Advanced ventilation system - balanced ventilation
- Lively entrepreneurial network High Tech Campus Eindhoven (part of High Tech Campus Business Club)
- Various facilities within walking distance (restaurants, childcare, sports center, etc.)
- Virtual reception
- Shared facilities such as meeting rooms, pantries
- Various general facilities such as parking, repro, mail service
- Network of specialists who can support with growth

TWICE hubs

Building high tech success

Many high tech companies have already used our hubs. The success, growth and performance of these high tech organizations shows that TWICE offers an ideal breeding ground to accelerate business. Startups and scaleups can grow in an environment with high quality facilities, great flexibility, first class service and a nice community of innovative companies.

Our shareholders are the Brabant Development Agency (BOM), Eindhoven municipality, Eindhoven University of Technology, Brainport Development and Rabobank. Together with us, they ensure that companies in the Brainport region can flourish.
